

Alien Nation - 1/2

Interprété par Scorpions.

In the heat of the violence
The night's exploding everywhere
When hate pulls the trigger
The devil comes to take his share
In the garden of Eden
The time is running out so fast
Into the heart of the demon
With no escape, our die is cast

In the city of angels
Death is just a moment away
In the city of angels
Your future won't see the light of the day

Beware of the alien nation Beware of the truth that they seek They pray for eternal salvation They pray for your soul to keep

On the eve of destruction A reign of terror rules the streets When the heads start rolling The devil comes to let it bleed

In the city of angels
Death is just a moment away
In the city of angels
Your future won't see the light of the day

Walk on past the alien nation Walk on to the end of your reach No fear of the alien nation No fear of the hatred they preach

Don't run, there's no place to hide
Today or tomorrow it will get you
Don't move, the knife is right at your throat
And whatever you do, there's no way out
When the shroud comes down on this place
To bury us all alive
We'll know the time has come, to face the heat

Beware of the alien nation Beware of the truth that they seek They pray for eternal salvation They pray for your soul to keep Walk on past the alien nation

Alien Nation - 2/2

Walk on to the end of your reach They pray for eternal damnation They pray for your soul to keep
