

## Something Like You - 1/1

Interprété par N Sync.

So many times I thought I hold it in my hands  
but just like grains of sand  
love slipped through my fingers  
so many nights I asked the Lord above  
Please make me lucky enough to find a love that lingers  
Something keeps telling me that you could be my answered prayer  
you must be heaven sent, I swear  
cuz...

Something happens when you look at me I forget to speak  
something happens when you kiss my mouth my knees get so weak  
could it be true is this what God has meant for me?  
cuz baby I can't believe...that something like you could happen to me

yeah yeah...something like you

Girl in your eyes I feel your fire burn  
oh your secrets I will learn  
even if it takes forever  
with you by my side i can do anything  
I don't care what tomorrow brings as long as we're together  
my heart is telling me that you could be my meant to be  
I know it more each time we touch  
cuz...

Something happens when you look at me I forget to speak  
something happens when you kiss my mouth my knees get so weak  
could it be true is this what God has meant for me?  
cuz baby I can't believe...that something like you could happen to me

Something magical (something magical)  
something spiritual (something spiritual)  
something stronger than the two of us alone  
something physical  
something undeniable (undeniable)  
nothing like anything (anything) that i've ever known  
cuz...

Something happens when you look at me I forget to speak  
something happens when you kiss my mouth my knees get so weak  
could it be true is this what God has meant for me?  
cuz baby I can't believe...that something like you could happen to me

Something happened...ohhhh, can't believe that you happened to me  
hey yeah...
