

Love me back to life - 1/1

Interprété par Bon Jovi.

This world don't give you nothing it can't take away

Everybody holding on to something

Nobody wants to fade away

No forgiveness on the streets of this town

I left my patience at a traffic light

There's no denying that I almost lost it

Threw in the towel, too tired to fight

Tonight I need you

More than yesterday

Tonight I need you

Chorus: Take me, touch me, hold me like you mean it

Make me come alive

Hurt me, heal me, come and make me feel it

Rescue me tonight

Love me back to life

These days I'd trade sight for feeling

There are days my feeling's gone

Can't figure out whose life I'm living

I don't know right from wrong

When I lost my faith

You found it and gave it back to me

There's a new light on your halo; it took blind eyes to see

That I need you

More than yesterday

Yeah, I need you

Chorus: Take me, touch me, hold me like you mean it

Make me come alive

Hurt me, heal me, come and make me feel it

Rescue me tonight

Love me back to life

Guitar Solo

Chorus: Take me, touch me, hold me like you mean it

Make me come alive

Hurt me, heal me, come and make me feel it

Rescue me

Take me, touch me, hold me like you mean it

Make me come alive

Hurt me, heal me, come and make me feel it

Rescue me tonight

Love me back to life

Love me back to life

Love me back to life

Love me back to life
