

# Learn To Crawl - 1/1

## Interprété par Spiderman.

You can laugh, you can feel fine  
You can dance with a little twist  
Tell you pretty red-head babe, you forget that I exist  
Can you see yourself in a battered eye  
Would you leave me on the side of the road  
Would you walk right up to me, would you talk to me?

Already asking, down on my knees  
I'm already begging, begging you please  
Can you teach me how to fly?  
You see I'm scared to die  
I've only just begun to learn to crawl  
Can you teach me how to fight?  
You can keep me up all night  
Would you be there on the ground if I should fall?  
Fall for you

I can feel it like a spider's sting  
Like a memory in my mouth  
I feel like the morning fell, like the bottom's falling out  
I can see what's up there above it all, even down in the valley below  
I can walk right up to you, I can talk to you

Already asking, down on my knees  
I'm already begging, begging you please  
Can you teach me how to fly?  
You see I'm scared to die  
I've only just begun to learn to crawl  
Can you teach me how to fight?  
You can keep me up all night  
Would you be there on the ground if I should fall?  
Fall for you  
Fall for you
