

This Is Your Day - 1/2

Interprété par 112.

I'll shine the sun your way
Oh girl, this is your day

Alone at night my body craves you
Then I let the music play
And we make love in my mind
I get the chills as though you're there with me
Now I can't wait for you to come home again
To please me

Girl if you want the sun
Better shine it your way
And if you want your back rub
Then I'll come right away
And anything you want from me
Baby you can have it your way
Oh girl, this is your day

Baby you know you make my day when you're with me
Please forgive me if I shower you with diamond rings
And all those pretty things, baby
You've changed my life to brighter days
You're so amazing, lady
Girl you're not alone, my heart is home
Just you in it, see

Girl if you want the sun
Better shine it your way
And if you want your back rub
Then I'll come right away
And anything you want from me
Baby you can have it your way
Oh girl, this is your day

I wanna be where you are in everything you do
So if you packed your bags and went away
I'd have to move where you are

Girl, what am I suppose to do
To get through to you
To make you see
With you is where I wanna be
Break it down, break it down, 112, break it
Break it down, baby, baby
Fellas sing it, sing it, sing it, sing it
I wanna be where you are
Everyday, every thing you do

This Is Your Day - 2/2

112, sing it

Girl if you want the sun
Better shine it your way
And if you want your back rub
Then I'll come right away
And anything you want from me
Baby you can have it your way
Oh girl, this is your day

Girl if you want the sun
Better shine it your way
And if you want your back rub
Then I'll come right away
And anything you want from me
Baby you can have it your way
Oh girl, this is your day...
