

I Wanna Be The Only One - 1/2

Interprété par Eternal.

[intro - album only]

You know I had to come all the way to England to sing with you

Aha

You know but it was worth the trip

Well thankyou

So, er I think we've got something to say

Let's go for it

Let's go for it? Alright why don't you take the first verse

O.K

Here we go

Yes I see you cryin'

(Yeah yeah yeah yeah yeah)

And I feel your broken heart

(Yeah yeah yeah yeah yeah)

I can feel you're hurting

(Yeah yeah yeah yeah yeah)

Still you chose to play the part

If you let me be

(If you let me be)

I'll be all you need, all you need

I wanna be the only one to hold you

(Protect you from the rain)

I wanna be the only one to soothe you

(Erase all the pain)

I wanna be the only one to love you, love you

(Over again)

I wanna be the only one, the only one

(The only one I am)

Now you deserve a mansion

My lord you too

You can have the best of life

With all this I'll give you

A pure love that gold can't buy

If you take a chance

(If you take a chance)

I'll be worth the chance, worth the chance

I wanna be the only one to hold you

(Protect you from the rain)

I wanna be the only one to soothe you

(Erase all the pain)

I wanna be the only one to love you, love you

(Over again)

I wanna be the only one, the only one

I Wanna Be The Only One - 2/2

(The only one I am

I wanna be the only one to hold you

(Protect you from the rain)

I wanna be the only one to soothe you

(Erase all the pain)

I wanna be the only one to love you, love you

(Over again)

I wanna be the only one, the only one

(The only one I am)

If you let me be

If you let me be

I'll be all you need

If you take a chance

If you take a chance

I'll be worth the chance

If you just love me

You will gladly see

I'm all you need

I wanna be the only one to hold you

(Protect you from the rain)

I wanna be the only one to soothe you

(Erase all the pain)

I wanna be the only one to love you, love you

(Over again)

I wanna be the only one, the only one

(The only one I am)

[repeat chorus to fade]
