

I'm All About You - 1/1

Interprété par Aaron Carter.

There's somethin' that I've got to say
You're always with me Even though, you're far away
Talkin to you on my cell
Just the sound of your voice Makes my heart melt
Ohhh girl, well it's true

I'm all about you
I'm all about us
No baby, you'll never Have to question my love
And every night there's a new crowd
But it's always you I'm singing about
There is only one
These words are going out to
Ohhh girl, I'm all about you

I know you worry sometimes
Some other girl will
Make me forget you're mine
There's not a doubt in this world
That anyone could take
The place of my number one girl
It's true

I'm all about you
I'm all about us
No baby, you'll never
Have to question my love
And every night there's a new crowd
But it's always you I'm singing about
There is only one
These words are going out to
Ohhh girl, I'm all about you

I'm all about you
