

She comes and goes - 1/1

Interprété par David Charvet.

If she would let me in her life
I promise I would make things right
But every time I get close
She gets scared to let go
So she loves and leaves me

Chorus:

She comes and goes, she drives me wild
She never has to take it
She comes and goes, she's in and out
She's so damn beautiful...

I try to make her look within
I try to give her everything
She can't deny this thing we have
But she's afraid that love won't last
So she loves away from me

Chorus

This is where you belong
I won't let you run away
Here in my loving arms
I will fight to make you feel my love always...

She comes and goes, she drives me wild
She never has to take it
She comes and goes, she's in and out
She's so..... she's so damn beautiful...

Chorus

She comes and goes, she drives me wild
Can't find the words to make her mine
If she could only hear the words I say ...
"She's so damn beautiful"...

Oh yeah, oh yeah...
