

## Prisoner of love - 1/2

Interprété par David Charvet.

Gotta surrender, throw your hands up  
And give yourself away  
You're not in danger, I'm taking you as  
A prisoner of my love

Before I throw away the key  
Just to keep you close to me  
I have to say, it's worth the wait  
If you give yourself to me

For you, I have found myself  
I feel I'm someone else  
For you, I find the truth in me

Chorus:  
Lay down your arms, don't fight with me  
You know that I don't mean you harm  
So accept defeat  
Lay down your arms, just come with me  
All is fair in love and war  
It's time to be a prisoner of love

You gotta surrender, wave a white flag  
Reveal yourself to me  
I'll be waiting on the front lines  
To set our two souls free  
And if you're hungry I will feed you  
With everything you need  
And don't you worry, I'll protect you  
My love will be your shield

For you, I have found myself  
I feel I'm someone else  
For you, I find the truth in me

Chorus

Girl I need you so much  
You can run but you can't hide

For you, I have found  
I feel I'm someone else  
For you, I find the truth in me

Chorus

I'm a prisoner of love
