

## One more time - 1/1

**Interprété par Laura Pausini.**

Nothing I must do  
Nowhere I should be  
No one in my life  
To answer to but me

No more candlelight  
No more purple skies  
No one to be near  
As my heart slowly dies

If I could hold you one more time  
like in the days when you where mine  
I'd look at you 'till I was blind  
So you would stay

I'd say a prayer each time you'd smile  
Cradle the moments like a child  
I'd stop the world if only I  
Could hold you one more time

(hmmmmmm)

I've memorized your face  
I know your touch by heart  
Still lost in your embrace  
I'd dream of where you are

(music break)

(hmmm)

If I could hold you one more time  
Like in the days when you were mine  
I'd look at you 'till I was blind  
So you would stay

I'd say a prayer each time you'd smile  
Cradle the moments like a child  
I'd stop the world if only I  
Could hold you one more time

One more time
