

## Drowning - 1/2

Interprété par Adema.

Die!

I gave in to  
The stress in life  
I can't escape  
The pressure seems to get me down

It's like a needle in my spine  
It stings inside  
Poisons me with time  
I can't deal with your lies

I wish I could watch you drown and die  
And take my time  
(Lies)  
It's always been a problem, can't you see?  
I don't get  
(Your lies)

People have said (They have said)  
I'm not okay (I'm not okay)  
I lost my mind, numb me 'til I won't feel pain again

It's like a needle in my spine  
It stings inside  
Poisons me with time  
I won't deal with your lies

I wish I could watch you drown and die  
And take my time  
(Lies)  
It's always been a problem, can't you see?  
I don't get  
(Your lies)

Life is gone  
I have no one  
Life is good  
I am no one

Life is gone  
I have no one  
Life is scarred  
I am no one

Life is gone  
I have a lie

## Drowning - 2/2

Something, something inside of my mind  
Let it all go and tie me to your fight  
Nothing is real inside, just the lies  
Something keeps building you high with lies

I wish I could watch you drown and die  
And take my time  
(Lies)  
It's always been a problem, can't you see?  
I don't bend  
(The lies)

I wish I could watch you drown and die  
And take my time  
(Lies)  
It's always been a problem, can't you see?  
I don't bend
