

The one thing - 1/1

Interprété par Alphaville.

With all the grace that you possess you're telling me your lies
A kiss, a touch, a gentle stroke, a look into my eyes
Your promises and fairy tales have all turned into dust
Your star was high, your kingdom grew in vain now fades at last

That is the one thing I know
Stop talking, stop talking with that voice
Stop! I can't stand it when I look into your eyes
Stop talking, who do you think you are?
Stop, you're too perfect, but this time you've gone too far

How can you be so sure about those tears you're giving me
Your mysteries and agonies show no effect on me
I can't believe the love we shared would ever grow so old
Your warm embrace was heaven, but tonight it feels so cold

That is the one thing I know
Stop talking, stop talking with that voice
Stop! I can't stand it when I look into your eyes
Stop talking, who do you think you are?
Stop, you're too perfect, but this time you've gone too far

Stop talking
Stop talking

That is the one thing I know
When I look into your eyes
That is the one thing I know
I can't stand it, I can't stand it no more
