

Caught in the balance - 1/1

Interprété par Toto.

What happened to me
Oh it seems so long ago
The cuts run deep
But the scars still show

I live in the shadows
Where it's been so hard to grow
I'm still a servant in a nobleman's robes

You know my weakness girl
You know my kind
You helped me see when I was blind

Refrain :
It's a crime to live my life without you
Serve out my years in darkness
Inside this walls I die without you
And when I close my eyes
I'm caught in the balance

Afraid of the hurricane
I hide in my domain
I need release from all this pain
Please don't forsake me
In this ruins of your home
I can't wait forever
Don't leave me alone

I have a secret if you want to learn
I will surrender in return

Refrain

You know my weakness girl
You know my kind
You helped me see when I was blind

Refrain (x2)
