

No love - 1/1

Interprété par Toto.

At the end of my live
When it's time to depart
Will the last face I see is yours
When I take my last breath
And drift through the dark
Will I look 'round and still feel secure

(It's) no sacrifice to stay by your side
Till hell freezes clear to the core
Whatever the price, no matter how high
Over your shoulder
When you turn around
I'll be tellin' you

No love
Will ever be stonger
No love, love anywhere
No love wil ever last longer
If I can't have your love,
I don't want no love, love at all

I'll put my change on the dresser
... next to your scarf
Cook my heart in the skillet next to yours
10 000 tears lead up to now
You are the treasure for sure

Lines on my face get deeper each day
But the feelings are ageless and smooth
One single trace of doubtstill remains
Over my shoulder, when I turn around
Will you be tellin' me

No love
Will ever be stonger
No love, love anywhere
No love wil ever last longer
If I can't have your love,
I don't want no love, love at all
