No love - 1/1

Interprété par Toto.

At the end of my live When it's time to depart Will the last face I see is yours When I take my last breath And drift through the dark Will I look 'round and still feel secure

(It's) no sacrifice to stay by your side Till hell freeses clear to the core Whatever the price, no matter how high Over your shoulder When you turn around I'll be tellin' you

No love Will ever be stonger No love, love anywhere No love wil ever last longer If I can't have your love, I don't want no love, love at all

I'll put my change on the dresser ... next to your scarf Cook my heart in the skillet next to yours 10 000 tears lead up to now You are the treasure for sure

Lines on my face get deeper each day But the feelings are ageless and smooth One single trace of doubtstill remains Over my shoulder, when I turn around Will you be tellin' me

No love Will ever be stonger No love, love anywhere No love wil ever last longer If I can't have your love, I don't want no love, love at all
