

## Mysterious ways - 1/1

**Interprété par Toto.**

I must have aged 20 years in the last seven days  
Livin' on emotion disbelief and rage  
I found out the hard way life  
is what you make

Refrain

You can go where you want to go  
You can know what you want to know  
Take a good look inside you'll see  
You can have it all if you just believe  
Times moves in mysterious ways  
You're dancin' to the music  
while the music plays  
Accelerates and then delays  
Times moves in mysterious ways

Accidents can happen and they always do  
It only takes a twist of fate to turn on you  
I was at the wrong place at just right time  
I thought she was a lover  
not a friend of mine

REFRAIN

And once it's inside of me  
It's like a symphony  
You're on a cloud and can't come down  
It's like a dream then you come around

REFRAIN
