

## Never recover - 1/1

**Interprété par Cardigans.**

How I always memorize  
Every single misery  
And I seem to glorify  
Everything inside of me

And the hero never dies  
If the lover hides  
Between the sheets  
There's no escape  
'Cause you can't sleep  
And then you'll see  
You're just like me...

That's what you called waste of time  
I'll be waiting down the line  
That's what you called waste of time  
Waiting for your valentine  
That's what you called waste of time  
I know where the hero hides  
That's why you don't sleep tonight  
That's what I call life

With a hero in the past  
You hang on to history  
Such a love will always last  
And there's no recovery
