

Right in front of you - 1/2

Interprété par Céline Dion.

Life

It can twist your heart
Put you in the dark
I was cold and lonely
Doubt
It can close you in
Build the walls within
I let fear control me
I let go
Didn't know
Where the answer would be

Right in front of you
Right in front of me
We were looking
But somehow, some way
We couldn't see
That the love was always there
It's been around us everywhere
I had to fall to finally see
That you were right in front of me

Faith

It can lift you up
And we've got enough
To reach a new beginnig
Love
Can withstand a storm
In the final hour
We'll find the joy in living
Don't let go
'Cause I know
Pretty soo you will see

Right in front of you
Right in front of me
We were looking
But somehow, some way
We couldn't see
That the love was always there
It's been around us everywhere
I had to fall to finally see
That you were right in front of me

You are my tommorow
There's safety in your arms
Where you go, I'll follow

Right in front of you - 2/2

'Cause you're the world where I belong

Right in front of you

Right in front of me

We were looking

But somehow, some way

We couldn't see

That the love was always there

It's been around us everywhere

I had to fall to finally see

That you were right in front of me
