

## That's what she said - 1/2

**Interprété par Backstreet boys.**

There are people  
That say what you wanna hear  
Even on a raint day  
The'll tell you the sky is clear  
When you really really love someone  
Am I right when you say  
That you want them near?  
And if you can't even tell them Things that they wanna hear.

Refrain :  
Always, forever,  
All the things she said.  
Never say never,  
Those simple lies that she made  
I will never leave you  
All the love I though she had  
But can you blame me no, mmm Cause that's what she said.

That's what she said  
She told me we'd see forever  
That's what she said she said yeah.  
There are people  
That say what they really mean,  
She said she'd always be there  
She said she'd always care  
But just when you think  
That you can trust  
That someone, in love.  
Tell me why do you know  
How stars can fall from above.

Refrain

That's what she said,  
She told me we'd see forever.  
That's what she said,  
She told me we'd be together.  
That's what she said,  
She said yeah.

Cause you made promises,  
That you couldn't keep  
But you're not hurting yourself You're only hurting me  
Why would you say things  
That you really didn't mean  
Oh how can I make you see,  
Just a what you did to me?

## That's what she said - 2/2

Oh, oh, you said how much  
You really cared.  
Just when I thought I was in love, Girl how could you live  
If I were you I could not lie even once  
To the face of the one I love so much

Refrain
