

French kissing - 1/3

Interprété par Sarah Connor.

Come on, you say you love me
I make you believe that it's love you receive
Like a thief
I just take what I need
And when we're going tonight

Just an ordinary evening
I heard voices from the ceiling
And I really was believing
It was my mind playing tricks on me

Went upstairs just for receiving
Something told me you were leaving
So I looked out of my window
Just to see you there coming straight back to me

Do it, baby, do it
On the beach
Do it, baby, do it
Down on the street
Do it, baby, do it
You an me
We're gonna do what they call the French kissing

Give it, baby, give it
In the car
Take it, baby, take it
Wherever you are
Give it, baby, give it
Got too far
We're gonna do what they call the French kissing

All the people try to reach us
All the preachers try to teach us
They will never find the features
That make our love live eternally

You and me we live forever
Breakin' rules but stay together
So I miss your kiss and tell you this

Do it, baby, do it
On the beach
Do it, baby, do it
Down on the street
Do it, baby, do it
You an me

Romeo, lover, got up and kissed her

His Juliet girlfriend started to whisper

According to Cesar and to Cleopatra

I say the top of the pop is French kissing

Like Ece and Adam, seduction led 'em

And when they went to get down

They found their way to heaven

Do you want me to stop (no)

We're gonna do the French kissing

Do it, baby, do it

On the beach

Do it, baby, do it

Down on the street

Do it, baby, do it

You an me

We're gonna do what they call the French kissing

Give it, baby, give it

In the car

Take it, baby, take it

Wherever you are

Dup dup
