

All I want (Sunship Radio edit) - 1/3

Interprété par Mis-Teeq.

M with the I with the S-T double E Q
All I want is to be with you
Mis-teeq with the one Sunship

All I want
Is to be with you
But I just got to live, and live my own life too
All I need to know (need to know that the world)
That the world is nuts snap my fingers (fingers) [ooh]
And everything is fine
That's all (that's all)
Firing it up and away we go

Sitting looking in the mirror like Alice
Through the looking glass
Life's a never ending journey be careful not to go too fast
Sometimes I can't help myself from falling in too deep
I know it may be hard to tell your love is calling me

Oh-ah (oh-ah) all I wanna be, ah (oh-ah)
And away we go
Oh-ah (oh-ah) all I want is
Gonna get on the mic (oh-ah) gonna make you whine

All I want
Is to be with you
But I just got to live, and live my own life too
All I need to know (need to know that the world)
That the world is nuts I snap my fingers (fingers) [ooh]
And everything is fine
That's all (that's all)

Floating on a river of dreams on a magic carpet ride
Take control of my destiny I know it's just a matter of time
That I will find that Midas touch
And everything will turn to gold
It would mean nothing without you here to hold

Oh-ah (oh-ah) all I wanna be, ah (oh-ah)
And away we go
Oh-ah (oh-ah) all I want is
Gonna get on the mic (oh-ah) gonna make you whine

All I want
Is to be with you
But I just got to live, and live my own life too
All I need to know (need to know that the world)

All I want (Sunship Radio edit) - 2/3

That the world is nuts I snap my fingers (fingers) [ooh]
And everything is fine

I can read it in the stars that what I want is who you are
I will lay my hair down for you a thousand times to show you
That when you reach me at the top
I'm gonna give you all I got
And wherever we would go our hearts will follow

It's a UK thing, stuff that we bring
No one to burn, let the journey begin
We're the Mis-teeq, we're in chorus we sing
Quick off the mark, ring a ding, ding, ding
In a mix with a bag of tricks
Feel the vibe with the one Sunship
Move to the beat it's about music
Roll through these tracks with fresh tactics

All I want
Is to be with you
But I just got to live, and live my own life too
All I need to know (need to know that the world)
That the world is nuts I snap my fingers (fingers) [ooh]
And everything is fine [oh]
