

## Where do I hide? - 1/1

**Interprété par Nickelback.**

Got a criminal record  
I can't cross state lines  
First on the bad list  
And you're last on mine  
Lookin' for a scapegoat  
Long past due  
Walking down the aisle  
Staring straight at you  
I still hear him screaming "where do I hide?"  
And all he asks and I say "hurry inside"

He said, she said...  
No she don't  
Be back before morning  
And you know she won't  
Well I remember that summer  
Like yesterday  
And I remember his mother  
As he was dragged away

I still hear him screaming "where do I hide?"  
And all he asks and I say "hurry inside"  
A whole lot of memories... yours and not mine  
And all he asks and I say "hurry inside"
