Interprété par The verve.

So take your time
I wonder if you're here just to use my mind
Don 't take it slow
You know I've got a place to go
You always do that
Something I 'm not sure of
But just for today
Let go and slide away
I was thinking maybe we could go outside
Let the night sky cool you foolish pride
Don 't you feel alive these are you times and our highs
So take your time
I wonder which cup you drink from I hope it's mine
You always do that something
Sonething I 'm not sure of but just for today
Let go and burn away
Cause I read you mind
I need it because it takes me where I can't find
Because you always do that something
Something I 'm not sure of
but just for today
Let go and burn away
I was thinking maybe we could go outside
Let the night sky cool you foolish pride
Don 't you feel alive these are you times and our highs
Slide Away burn away
Slide Away burn away
I read you mind
