

## Catching the butterfly - 1/1

Interprété par The verve.

As though you were born  
And so you thought  
The future 's ours  
To keep and hold  
A child within  
Has healing ways  
It sees me through  
My darkest days  
I 'm gonna keep catching that butterfly  
In that dream of mine  
I 'm gonna keep catching that butterfly  
In that dream of mine  
In my lucid dreams  
In my lucid dreams  
Walking Now  
Through life no fun  
I want to feel  
I want to run  
I 'm gonna keep catching that butterfly  
In that dream of mine  
I 'm gonna keep catching that butterfly  
In that dream of mine  
In my lucid dreams  
In my lucid dreams  
I 'm gonna keep catching that butterfly  
In that dream of mine  
Keep catching that butterfly  
In that dream of mine  
I 'm gonna keep catching that butterfly  
In that dream of mine  
I 'm gonna keep catching that butterfly  
In my private dreams  
In my private dreams  
In my private dreams  
My lucid dreams  
My forgotten schemes  
I see through you  
You see through me  
I see through you  
You see through me  
Be with me  
Be with me  
I see through you  
You see through me  
I see through you  
You see through me
