

New York - 1/2

Interprété par Richard Aschcroft.

are you tuning in
are you tuning in
are you tuning in

and I've wanted to go
half my life
and I feel kind of strange
like I've never II'veed that life
and im trying hard
to control my heart
and I always wanna know
and I always wanna go

new york
are you tuning into new york
big city dreams new york
I wanna see new york
are you tuning in
are you tuning in
are you tuning in
new york

there's no time to unpack yeah
lets get straight out on the street
and feel no inhibitions
this city was built for me
and my head is full of questions
when did I feel this good
in the arms of my lover
burning through the night of new york

are you tuning into new york
are you tuning into new york
I wanna see new york
big city dreams
are you tuning in
are you tuning in
are you tuning in
new york
are you tuning in
are you tuning in
are you tuning in
new york

and funny how time flies
in the city that never sleeps
its getting after hours

New York - 2/2

and im feeling the heat
and almost dead and buried
this days nearly done
but I wanna keep on going
im gonna kiss the sun in new york

are you tuning into new york
are you tuning into new york
big city dreams new york
I wanna see new york
big city dreams new york
I wanna see new york
big city dreams new york
are you tuning in

Its in my veins
Its in my veins
Its in my veins

and im feeling kind of selfish
cause im just flying home
I've been busy on your island
just having my own fun
its an English tradition
find some money make some time
get busy on your island
slowly loose our minds in new york

are you tuning into new york
are you tuning into new york
big city dreams new york
I wanna see new york
big city dreams new york
I wanna see new york
are you tuning in

im going around around around around around
around around around around around
around around around around around
im going around around around around around
around around around around around
around around around around around
its a state of mind
now im tuning in
its a state of mind
now im tuning in
and now im tuning in
