

## Until Death Do Us Part (je L'aime à Mourir) - 1/2

Interprété par Roch Voisine.

I was nothing before, still I stand here today  
As a keeper of dreams, till the night fades away  
Je l'aime à mourir  
You can tell me again, all the reasons to leave  
But with a touch of her hand, she can make me believe  
That I belong here, yes I belong here  
Je l'aime à mourir  
Not a moment ago, I was only a man  
But she fills me with more, in a way no one can  
Je l'aime à mourir  
When she catches my eye, all the light from the sun  
Seems to wither and die, next to all she's become  
I am without fear, and I would die here  
Je l'aime à mourir

It isn't fair, you know  
Why should I care?  
There are a million just like me  
It isn't fair, you know  
Why should she care,  
And live to be, the world to me

She is all I've become, she is all that I need  
And she makes me feel one, with the air that I breathe  
Je l'aime à mourir  
Though sometimes we're apart, though sometimes I'm astray  
It's the beat of her heart, in the music I play  
That keeps me sincere, through all these long years  
je l'aime à mourir  
I could cry for her eyes, like a child in the cold  
And I will live by her side, till the day I am old  
Je l'aime à mourir  
When you find someone strong, someone inside your heart  
And when she takes you beyond, "until death do us part"  
you'll know what I mean, why I would die here  
Je l'aime à mourir

It isn't fair, you know  
Why should I care?  
There are a million just like me  
It isn't fair, you know  
Why should she care?  
And live to be, the world to me

I was nothing before, still I stand here today  
As a keeper of dreams, till the night fades away  
Je l'aime à mourir
