

## Feels So Good - 1/1

**Interprété par Atomic Kitten.**

It feels so good, I knew that it would  
Nothing's gonna take this day away  
Cos' it feels so nice, oh so right  
Nothings gonna take this day

Was only yesterday, I tried to get away  
And now there's been a major turnaround  
I was so very sure, what I was wishing for  
And now my feet can hardly touch the ground

Cos the sun is shining, perfect timing  
I needed something to rescue me  
From the ordinary, now I'm ready  
So come on with me

Chorus:

Cos it feels so good, I knew that it would  
Nothing's gonna take this day away  
Cos' it feels so nice, oh so right  
Nothing's gonna take this day away

I'm where I wanna be, nothing to bother me  
I took my cares and left them all behind  
I had to get away, deal with them another day  
they're out of sight, and out of mind

And the sun's still shining, no denying  
Something came along to rescue me  
From the ordinary, now I'm ready  
So came on with me

Repeat chorus

It's just what I needed, some emotional healing  
It's a wonderful feeling, nothing left to lose

Repeat chorus X3
