

Hold on blue eyes - 1/1

Interprété par David Hallyday.

I saw you standing on your street
Something changed, I could almost see the heat
Then you caught me with your eyes
Feel it inside
Couldn't leave you if I tried

Hold on blue eyes hold on
Hold on blue eyes hold on

The wind blows nobody right
But you make it hard to say goodnight
When you think there's no one there for you
I'm coming - only one thing you can do 'til then

Hold on blue eyes hold on
Hold on blue eyes hold on

Troubles comes and then it's gone
Hold on blue eyes hold on
Oh, people twist and turn the knife
Why don't they let you live your life

Hold on blue eyes, hold on blue eyes
Hold on blue eyes, hold on blue eyes
