

# I Believe - 1/1

**Interprété par Sophie Ellis Bextor.**

Hold me down  
So I don't leap onto the wall  
With the fever of it all  
That would encourage mayhem  
They're quite a rowdy crowd, do you think?  
And I'm going to the peak of something  
Lovely feeling, slippery breathing  
Tell me how to break the news  
There's no way that I can lose my love and it's taken over me  
I feel as if this love could last forever  
As if my luck and hope have found each other  
I feel as if I should have known, together  
We make good sense to me and I believe.  
Who just said  
Some girls don't get a second chance  
When I've toyed and I've romanced  
I'm on the edge of something  
Inner soothing, man-approving  
Tell me how to take the news  
There's no way that I can lose my love and it's taken over me
