

## Bullet Proof - 1/1

Interprété par The Goo Goo Dolls.

Do you listen to yourself  
Never live for someone else  
Do you like the way you feel  
Nothing hurts when no one's real  
She wants to shake this scene  
Yeah she wants to shake with me  
She's not looking for the holes in all the lies

I wanna bullet proof your soul  
Would you like to lose control  
I won't let you fall until you tell me so

What are we  
Everything  
All I need  
I've know before

Would you come my way  
Or did you burn out to the end  
Would you come my way  
Should have listened when you called my name

Yeah she wants to tear you down  
And she leaves without a sound  
It's like falling backwards  
Into no one's arms

You're a bullet through my soul  
And I'll never let you know  
I won't let you fall until you let it go

What are we  
Everything  
All I need  
I've known before

Would you come my way  
Or did you burn out to the end  
Would you come my way  
Should have listened when you called my name
