

## Calm Inside The Storm - 1/1

Interprété par Cyndi Lauper.

I can get up  
on the right side of the bed  
but that won't stop the rain  
from coming down on my head  
I can live my life  
playing hide and seek  
but when I look inside  
It's hard to make believe,  
ah ah

Recently  
you seem so far away  
I wish I could say something  
but I don't know what you say  
I can feel your eyes  
I don't have to look at you  
boy,discontentment  
is-a-sneakin' through

you never really want anything  
but what you really need is everything  
I'll give you something only life can bring  
the calm inside the storm  
love me a little, love me long  
wo yeah  
the calm inside the storm  
love me a little,love me long  
don't you know  
you should be holding me  
but you're all locked inside  
why don't you throw me your keys  
I'm like a rockin' ship  
on your rollin'sea  
you know crash lightnin'  
never frightens me,nha

...you never really want.....
