Faith - 1/2

Interprété par Céline Dion.

Don't be afraid Feeling this way I'm gonna make you understand It's not about you Cuz I am the fool Building castles in the sand

If I act crazy Just don't care It doesn't mean I don't want you near This is the story about me and you And it's called...

Faith Right beside you is where I'll stay Oh, faith Just take me as I am So please have faith

So many times In so many ways I didn't know just where to go You gave me a sign And opened my eyes That's the reason why I know

That this is different You're still here I guess you figured me out right there Now I believe that we can make it through And that's called...

Faith Right beside you is where I'll stay Oh, faith Just take me as I am So please have faith... Have faith...

So don't be afraid Feeling this way Just hear me out ...stay! And that's called...

Faith Right beside you is where I'll stay It's not too late

Faith - 2/2

Just take me as I am So please have faith... It's not too late Just keep the faith
