

Your Decisions - 1/1

Interprété par Twarres.

I hear your voice every minute, every hour
And every time again you say you must do this
Walking up and down the stairs all afternoon
'Cause if you don't then you will die tomorrow

And I can't handle it no longer anymore
And if you don't stop, then I'm really gonna get crazy

Chorus

I can hear you talking in my head
You make decisions for me, but I won't

I see your face every minute, every hour
And every time again you charm me with your lies
Your magic eyes are so beautiful and deep
'Cause when I look in them, they make me someone else

And I can't handle it no longer anymore
And if you don't stop, then I'm really gonna get crazy

Chorus

When you were too tired and gave up the fight
You lost your hold on me, I left you to yourself
Now I'll see things I really want to see
No one will tell me what to do anymore

And I can't handle it no longer anymore
And if you don't stop, then I'm really gonna get crazy

Chorus (2x)
