

## Pedal To The Metal - 1/2

Interprété par Kazzzer.

Like a 454

With the 4 on the floor

Deuce coupe coming at you

Avoiding the capture

Fall from stop and drop

Than we ready to rock

And city of steel

Catch me crusin down the block

Whenever days are difficult

Im out on my own

Driving 86 Jetta

Hoping that I could do better

But my car keeps me humble

In the concrete jungle

Despite the wear and tear

It seems to always get me there

Rebuilt the motor because

She decided to blow

And what do you know

Someone stole my stereo, when it's

Time to go I put my foot on the floor

Let the deasel do the work

I ain't complaining no more

Highways and straighaways

Offroads and open roads

No matter what we will

still be making the show

It's kinda like life

And life treats you good

It's not what's on the outside

It's what's under the hood

Put the pedal to the metal and im off and never getting lost

Which way will I turn when roads cross

Press the petal to the metal little more when it's scary

But one thing for sure, keep my foot on the floor

Put the pedal to the metal and im off and never getting lost

Which way will I turn when roads cross

Press the petal to the metal little more when it's scary

But one thing for sure, keep my foot on the floor

It doesn't matter what you drive

It's like you drive what you got

Discipline you can win

Just let the tire spin

## Pedal To The Metal - 2/2

And begin  
The journey of life with each ride  
Can you help me at the side  
On what we wanna ride  
Sometimes we can live  
(something)  
With the back up plan  
And in with the program  
Who I am, Doesn't reflect material  
My vehicle approaches

Put the pedal to the metal and im off and never getting lost  
Which way will I turn when roads cross  
Press the petal to the metal little more when it's scary  
But one thing for sure, keep my foot on the floor  
Won't stop drivin till it's over  
Still be crusin when the sun goes down  
Won't stop drivin till it's over  
Still be crusin when the sun goes down

Put the pedal to the metal and im off and never getting lost  
Which way will I turn when roads cross  
Press the petal to the metal little more when it's scary  
But one thing for sure, keep my foot on the floor

Put the pedal to the metal and im off and never getting lost  
Which way will I turn when roads cross  
Press the petal to the metal little more when it's scary  
But one thing for sure, keep my foot on the floor

Put the pedal to the metal and im off  
Put the pedal to the metal and im off

pedal to the metal and im off
