

Where would I be? - 1/1

Interprété par Cake.

i've been waiting for so long
i've been hoping your love's not gone
houses are sliding in the mud
rivers are raging in your blood

where would i be without your love?
where would i be without your arms around me?

you were to be the only one
if i knew you i would not run
you have been cloudy, distant, dark
i'm thinking of noah and the ark

where would i be without your love?
where would i be without your arms around me?
