

Plug in baby - 1/1

Interprété par Muse.

I've exposed your lies, baby
The underneath is big surprise
Now it's time for changing
And cleansing everything
To forget your love

My plug in baby Crucifies my enemies When I'm tired of giving My plug in baby In unbroken virgin realities Is tired of living

Don't confuse
Baby you're gonna loose
Your own game
Change me
Replace the envying
To forget your love

My plug in baby Crucifies my enemies When I'm tired of giving My plug in baby In unbroken virgin realities I'm tired of living

And I see your loving But mine is gone And I've been in trouble
