

# Just what I've been looking for - 1/1

Interprété par Cher.

Chorus:

You're just what I've been looking for  
Something I never thought I'd find  
And everything I ever dreamed of  
Is getting closer all the time  
I believe you want me too  
And love is in your eyes  
You're just what I've been looking for  
Just what I had in mind

Once around the queen of love  
I guess everybody's tried  
And you'll never quite get old again  
When you've been taken for a ride

We'll forget our lives  
That's another place and another time  
That world began to fade away  
When you walked into my life

(CHORUS)

You're just what I've been looking for  
Just what I had in mind
