

Skin deep - 1/1

Interprété par Cher.

You came on to me a house of fire
One look was all it took for my desire
I'm still burning, it's the middle of the night
I need something that can
Make me feel alright as I go

Chorus:

Skin deep, to the bone
Every time I see your face
I go skin deep, to the bone
Telling me that I'm in trouble
S.O.S, I'm in distress tonight
(only sing last line of chorus first time)

Knock knock in the dark, what will I find?
Your eyes-hypnotize, but can they read my mind?
Watch your step now
We're gettin' closer to the edge, this is dangerous
And all the lights are flashing red as I go

(chorus)(repeat)

Too far gone, I can't hold on
Tonight, not tonight

I'm still burning, it's the middle of the night
I need someone that can
Make me feel alright as I go

(chorus)(repeat)

Skin deep, to the bone
Every time I hear your voice
I go Skin deep, to the bone
Telling me that I'm in trouble
