

## Kiss to kiss - 1/2

**Interprété par Cher.**

Do nothing till you hear from me  
Leave a number where you're gonna be  
These times are dangerous for you and me  
Would I get a message through?

She'll be watching every move you make  
She'll be waiting for that one mistake  
Somebody's heart is gonna have to break  
Before we are through

Chorus:

'Cause we can't live from kiss to kiss  
Making up for all we've missed  
Hiding in the daylight shadows  
Until it's time to say "goodbye"  
Wishing it would be all right  
Living with a loneliness from kiss to kiss

Don't ask me now what is right or wrong  
'Cause I've been wondering since you came along  
We were weak and love was strong  
Now there's nothing we can do

So I'll meet you at the same old place  
I know it's worth it when I see your face  
Someday we'll disappear without a trace  
Baby, that's the truth

(chorus)

I keep hoping we'll find a way  
(Kiss to kiss)  
I keep wondering who's gonna pay  
(Kiss to kiss)  
I keep waiting for Judgement Day

Some people's lives just get in the way  
And that's the truth

(chorus)

(Kiss to kiss)  
Making up for all we've missed  
Kiss to kiss(kiss to kiss)  
Hiding in the daylight  
Kiss to kiss(kiss to kiss)
