

## The fall - 1/1

**Interprété par Cher.**

Never even knew you  
but I heard your note today  
You talked about injustice  
and how we look the other way  
I knew full well your meaning  
but my - world just moves too fast  
It's a shame about your future  
it's a crime about your past  
uh uh uh, - uh uh uh  
Was there no one who could save you  
from the prison of each breath  
Like Repunzel in her tower  
isolation equals death  
Was there no one who could rescue you  
from the prison of your pain  
Am I tougher or just lucky  
our fate didn't end the same  
uh uh uh, - uh uh uh  
But my heart has run on empty  
since I heard the f xxxxx' news  
We're a heartless, godless culture  
we'd walk nowhere in your shoes  
uh uh uh, - uh uh uh  
For me it's 6:30 in the morning  
and my mood's as black as rain  
I am thirty light years older  
but I understand your pain  
They'll all hate you 'cause you left them here  
to struggle on their own  
I'm just sorry you saw no choice  
'til death chilled you to the bone  
uh uh uh, - uh uh uh  
But my heart has run on empty  
since I heard the f xxxxx' news  
We're a heartless, godless culture  
We'd walk nowhere in your shoes  
Well the good news, if there's any  
is you ever lived at all  
But our country kills it's hero's  
We just raise them for the fall  
uh uh uh, - raise them for the fall  
uh uh uh -Oh we raise them for the fall  
for the fall, oh we raise them for the fall  
uh uh uh - raise them for the fall
