

The music's no good without you - 1/1

Interprété par Cher.

[Chorus]

The music's no good without you baby,
The music's no good at all.
The music's no good without you baby,
Come back to me.
Come back to me.
Everyone was watching,
You were the freakiest on show.
Dazzleing the crystal ball,
They all loved to watch you glow.
You were the center of attention,
The eye of the storm.
A whirlwind from outer space,
Like a twister on the sea.

We mesmerize them when we dance,
Cos you sparkle next to me.
We slid along the razors edge,
But you were crazy to be free.
I'll agonize till you come back,
And we can dance that close again.
I miss you boy, I really do.
Come back to me. Come back to me.

[Bridge]

Cos my world stopped spinning,
Nothing i can do,
So I pray that a DJ lifts my heart.

[Chorus]
