

Sticks ans stones - 1/1

Interprété par Alien Ant Farm.

I liked you
You showed me
These calls must continue

Time is collapsing in my head
I built all the walls you can't come in
You were the one that called me last
I highly doubt this thing will last

[Chorus:]
Sticks and stones, they hurt
When you shoot them through the phone
And you dragged my name through dirt
And it hurts to be left here all alone

Elegant thoughts I will not share
My symphonic silence
I hope you can bare it baby
I liked you
You showed me
Exactly who I don't wanna be

[Chorus]

I'll always look for you
I'll always look for you
No stone was left unturned

You were the one that called me last
I highly doubt this thing will last
Cause you were the one that messed up

[Chorus]

Sticks and stones get shot through the telephone
With instant results, we're both left alone
