

# Where are You ? - 1/1

**Interprété par Daddy DJ.**

Verse 1

Years ago we were just as one (hey)  
Livin' in a fairytale  
It was like nothing could come in our way  
Like our story was too true to fail

But now I'm screaming, sobbing, weeping, waiting here for you  
Always looking for your shadow in my nights  
Asking everybody why you run away from me  
Why love in my life was not made to last

Chorus

Where are you? In which arms, in which unknown atmosphere  
Where are you? My Lady  
Where are you? You're not here but I feel you everywhere  
Where are you? Where are you? Lady

Verse 2

Daddy said : "Son, you will understand  
When you'll be further in your life  
That a love story can reach a dead end  
And often leaving is better than fights"

But why are so much memories of you filling up my mind  
When darkness' falling down on me  
I fought the demons plaguing, I looked for understanding  
And blur is the only thing left to see

Chorus x 2

Where are you? In which arms, in which unknown atmosphere  
Where are you? My Lady  
Where are you? You're not here but I feel you everywhere  
Where are you? Where are you? Lady
