

Burn to shine - 1/1

Interprété par Ben Harper.

We made love until we cried
And cried ourselves to laughter
Laughed until we realise
Our heart was struck in fear
How and just a moment time
'Cos one see for ever after
I gently lied beside of you
And dream away with my tears
Won't you let me treat you kind
We're gonna burn to shine
Won't you let me treat you kind
We're gonna burn to shine
Funny things you learn from your mama
Like the way you throw your head back when swallowing pills
Funny things you learn from your papa
Like when you're talking you just can't keep your hands still
But that was now and this is then
It never last for long
How I miss the good old days
But I'm so glad they're gone
Won't you let me treat you kind
We're gonna burn to shine
Won't you let me treat you kind
We're gonna burn to shine
I like to spend the time that you
Would spend with me
So if you could help me out with my dependancy
'Cos I'm hoplessly addicted
Addicted to your sorrow
Makes me never wanna work or borrow
Won't you let me treat you kind
We're gonna burn to shine
Won't you let me treat you kind
We're gonna burn to shine
