

## Loved - 1/1

**Interprété par Kim Wilde.**

Take all your goodness and shine us away  
I'll tell you the things I've been longing to say  
I'll break it to you just so you understand  
The voice in control that you hold in your hands

Make me the beat of your heart  
Then fall into mine  
One step at a time  
You have no reason for doubting your feelings  
Love isn't always the same

You are loved  
(Ooh you are loved)

Live for the moment according to you  
And so when the time comes you know what to do  
Trust me, I'm giving no secret away  
I'm drowning in you but I want it that way

Make me the beat of your heart  
Then fall into mine  
One step at a time  
You have no reason for doubting your feelings  
Love isn't always the same

You are loved

I love you  
I make you for good  
I make you forever  
you know you are loved

Make me the beat of your heart  
Love isn't always the same  
You are loved  
Ooh you are loved

(Loved you are)  
(Loved you are)  
(Loved you are loved)  
Ooh you are loved
