

## Overload - 1/1

**Interprété par Dirty Dancing.**

I can hear your heels clicking on the sidewalk  
Beating to the rhythm of my heart  
Caught up in you  
You're the only one I want  
I follow you home every night  
Just to make sure that you get there alright  
Baby it's true  
Can't think of anything but you  
And what I need baby  
Is a little bit of sympathy  
Refrain :  
You got me on my knees  
I burn throughout the night  
And I can't live without your love  
Won't you help me cure this overload  
Won't you help me cure this overload  
Oh you got to know  
You see me everywhere that you go  
Doesn't that say something  
Obsession's taken hold of me  
All because of you  
You've got to see me through  
Can't take another night alone without you  
Honey it's true  
I am so hung up on you  
What I really need baby  
Is a little of your company  
Refrain  
And what I need baby  
Is a little of your sympathy  
Refrain
