

## Vertigo - 1/2

**Interprété par David Hallyday.**

I'm in a tailspin  
You make my head swim  
You know, you really took the boy by surprise !

I feel uneasy  
And real queasy  
'Cause this is threatening my very survival !

Baby, wontcha tell me if I'm in it alone ?  
Gimme just a little cue

Hold on real tight  
Could be a rough night  
I get dizzy at this height  
And I'm hopin' that you might...  
(Chorus)  
Oh Vertigo  
Catch me if I fall tonight !  
They call it Vertigo  
I think I'm gonna... fall tonight !

I'm on a tightrope  
Where did the net go ?  
I'm up here, and I still don't know why  
Don't wanna look don't  
I'm gonna lose ground  
I'll grow wings and then take to the sky !

Two can fly together much better than one  
Wontcha come fly with me ?

Into the sunrise  
Could be a fun rise  
Yeah, ya gotta call it love  
Guess, it took long enough !  
(Chorus)  
They call it Vertigo  
Fever goin' up, don't lok down  
Ooh oh baby I got it-Vertigo  
I think I'm gonna... fall tonight

I got double vision  
What a tough position I'm in  
Got trouble sleepin'  
Just can't keep my head up

Knew it could get scary

## Vertigo - 2/2

Nobody prepared me for this  
I must be scay  
Every day's a lot more insane

(Chorus)
