

Troubled by the way we came together - 1/1

Interprété par Natalie Imbruglia.

Paroles/Musique : Nick Seymour, Natalie Imbruglia, David Biegel

From hand to hand, you bought and sold
Blood is the shield against the weather
Became a stone for fear of being melted
Trouble from the day we came together
When you recover, from yesterday's low
True slave to traction of pleasure
I collect the embers as I watch you grow
You left along the way we came together

Refrain : As you breathe
As you breathe into life you will leave
You will leave
As you stray
As you stray far from home I will believe
I will believe

Flames of love immerse you, cradle and coerce you
Shadows over on the place you play
Names of love we mind along the way
Seem shallowed by the way we came together
My heart carries on, umm, but my head knows better
Troubled by the way we came together

Refrain

Cause you are here today, and gone tomorrow
Basking in the fields of never ever
You wanted today, oh, but I wanted forever
Troubled by the way we came together
My heart carries on, umm, but my head knows better
Troubled by the way we came together

Refrain

Outro:
'cause you are here today, and gone tomorrow
