

## Fix Me Now - 1/2

**Interprété par Garbage.**

things don't have to be this way  
catch me on a better day

bury me above the clouds  
all the way from here  
take away the things i need  
take away my fear  
hide me in a hollow sound  
happy ever more  
everything i have to give  
give out long before

fix me now  
i wish you would  
fix me now  
bring me back to life  
fix me now  
kiss me now  
somebody should  
fix me now  
from hollow into light

crashing silent broken down  
falling into night  
who gave up and who gave in  
i'll go without a fight  
cut me down or cut me dead  
cut me in or out  
kiss my blind time after time  
take away my doubt

fix me now  
i wish you would  
fix me now  
bring me back to life  
fix me now  
kiss me now  
somebody should  
fix me now  
from hollow into light

things don't have to be this way  
catch me on a better day

nowhere only down from here  
pick me off the floor  
take away the things i dream

## Fix Me Now - 2/2

one time one place one more

fix me now  
i wish you would  
fix me now  
bring me back to life  
fix me now  
kiss me now  
somebody should  
fix me now  
from hollow into light  
fix me now  
i wish you would  
fix me now  
bring me back to life  
fix me now  
kiss me now  
somebody should  
fix me now  
from hollow into light

things don't have to be this way  
catch me on a better day  
things don't have to be this way  
catch me on a better day  
things don't have to be this way  
catch me on a better day
