

Give A Little - 1/1

Interprété par Boyzone.

give a little, take a little,
pray a little give a little,
you know you've got to take a little,
just one more time pray a little, to make it happen

and i'd swear, i'd cross the road
but you'd avoid me please tell me,
why it ain't fair, i'd call you up but you won't answer just no reply

too blind to see the ache inside
so have a heart i'm begging you give a little, take a little, pray a little
say you want to give a little, you know you've got to take a little, just one more time pray a little,
to make it happen say you want me, girl

somehow with every chance i'll make you happy
you won't believe sing out loud
with each and every waking moment you'll fill my need
too blind to see the ache inside so have a heart i'm begging you

give a little, take a little, pray a little say you want to give a little,
you know you've got to take a little,
just one more time pray a little,
to make it happen say you want me, girl say you want me,
girl and wait and see too blind to see that ache inside so have a heart, i'm begging you

say you want me

give a little, take a little, pray a little say you want to give a little,
you know you've got to take a little, just one more time pray a little,
to make it happen say you want me, girl
